From The Director's Chair

Welcome to Swamp Meadow's Summer Children's Theater. It has been an honor to direct this talented group of kids. When I began my journey with SMCT back in January, I never would have thought that I could have gone from doing a show about pee to directing my first play, but here we are. This has been a fantastic experience. Everyone has put so much work and dedication into this show, and I am incredibly proud of how it has turned out.

When I first started working on this show, my goal was to help the kids build a love for theater, as other people did for me. This cast has kids aged 6-16 and they have all gotten so close in such a short amount of time. Everyone was able to learn from each other and implement that into the show. Once they started to feel comfortable they started to feed off each other's energy onstage. I love seeing the light in their eyes when they are on stage. Every single one of them should feel proud of what they have accomplished.

The rehearsal process was a learning experience for everyone. Each person is different and through rehearsals, I tried to format ways to help give the kids an opportunity to grow as both people and actors along with helping them discover the character inside themselves. The kids were given games and exercises that helped their onstage performance in a fun way! For example, we played "The Sky is Blue" to help find new ways to say your lines and give an impact on the audience, we learned "The Test" to help with annunciation and articulation, and we did warm-up exercises before we started rehearsal to get the energy going and get them ready to shine. Additionally, the collaborative nature of theater allows individuals to develop essential life skills. Effective communication, teamwork, problem-solving, and adaptability are honed throughout the rehearsal process. Cast and crew members learn to work together, respect each other's ideas, and navigate challenges.

This show could not go on without this amazing team. So many people that you don't see behind the scenes putting so much effort into this production. I am so thankful for everyone who saw my vision and made it come to fruition! Thank you to my parents for always supporting me and driving me around all the time. I wouldn't be who I am without them. Thank you, Shannon and Tyler for being the first people I ever met at SMCT and welcoming me. Thank you Merynn, Tyler, Joe, and Steph for being by my side during these rehearsals and being such a big help in so many aspects. Thank you Shannon and Audrey for writing this amazing script. Thank you to Tiffany for coming up with the ideas and building this incredible set. Thank you to my brain for not going crazy during all of this, and thank you to everyone else who is making this production wildly fun!

I want to finish this off by thanking this incredible cast. You all put so much time, dedication, and effort into this and I am so proud of all of you. Thank you for always trying and listening to my crazy ideas. You brought my vision to life and I hope to see all of you again. Never give up on your dreams. You are capable of anything you put your mind to!
